Table of Contents

1. Introduction
2. Chapter 1: The Characters of the Story

Introduction

This book presents a view of how the mind works that draws on recent developments in cognitive and social psychology. The core of the book is about two systems that drive the way we think: System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical.

This is an expanded section from 'Introduction' in 'Thinking, Fast and Slow' by Daniel Kahneman. In the full version of this book, this chapter contains detailed analysis, real-world examples, case studies, and practical exercises that help readers deeply understand and apply the concepts discussed. The author draws from years of experience and research to provide actionable insights that can transform the way you think and work. Each section builds upon the previous one, creating a comprehensive framework for mastery. The principles outlined here have been tested and validated through extensive practice and have helped countless individuals achieve remarkable results in their respective fields.

Chapter 1: The Characters of the Story

System 1 operates automatically and quickly, with little or no effort and no sense of voluntary control. System 2 allocates attention to the effortful mental activities that demand it, including complex computations. The operations of System 2 are often associated with the subjective experience of agency, choice, and concentration.
